Am I on Track for College?
 Look for the green, yellow, or red symbols next to your section scores. They let you know if your scores meet or exceed the benchmark scores. Benchmarks show college readiness. If you see green, you're on track to be ready to enter college. If you see yellow, you're on track to be ready to enter college. If you see red, you're on track to be ready to enter college. If you see red, you're on track to be ready to enter college. If you see red, you're on track to be ready to enter college.

Benchmark Scores
 Evidence-Based Reading and Writing: 470
 Math: 520

How Do My Scores Compare?
 A percentile shows how you scored compared to other students. It's a number between 1 and 99 and represents the percentage of students whose scores are equal to or below yours.

The Nationally Representative Sample Percentile
 Compares your score to the scores of typical U.S. students.

SAT User Percentile
 Compares your score to the scores of students who typically take the test.

How Can I Improve?
 To see which skills are your strongest and what you can do to boost your college readiness, go to your full report online and look for "Skills to Improve".

What Are Score Ranges?
 Test scores are single snapshots in time—if you take the SAT once a week for a month, your scores would vary. That's why score ranges are better representations of your true ability. They show how much your score can change with repeated testing over a few days and remember the score.

College Above ISE, and they get credit (comparing with scores to the corresponding scores in context). Four entries score ranging over your score ranges.
