

Lecturer in Aerospace Engineering (Full-Time)

The International School of Engineering (ISE) at Chulalongkorn University is seeking passionate and dedicated individuals to join our team as Lecturers in Aerospace Engineering.

About the Role

As a Lecturer, you will:

- Teach undergraduate courses in Aerospace Engineering.
- Supervise and mentor students in both coursework and research projects.
- Conduct independent research and publish in reputable academic journals.
- Contribute to program development and curriculum enhancement.
- Engage in student mentoring and supervision.
- Support administrative tasks and program-level responsibilities.

We are recruiting across multiple expertise areas, including (but not limited to):

- Aerodynamics
- Aircraft Structures
- Flight Dynamics & Control
- Space Propulsion & Rocket Systems
- Space Systems Engineering
- Satellite Technology & Payload Design
- Spacecraft Structures & Materials
- Orbital Mechanics & Spaceflight Dynamics
- Flight Performance & Propulsion
- Drone Development & UAV Systems
- Aircraft Design
- Space Mission Analysis & Design

Qualifications

- Ph.D. in Aerospace Engineering or a closely related field (required).
- Strong record of student supervision and mentorship (preferred).
- Demonstrated ability to conduct independent research.
- Experience in publishing in academic journals.
- Industrial or research experience in aerospace (a plus but not mandatory).
- Excellent written and verbal communication skills, with proficiency in English.
- Ability to work effectively in a multicultural and multi-disciplinary environment.

Why Join Us?

- Work at Thailand's leading university with an international academic community.
- Competitive remuneration package.
- Opportunities to shape the future of Aerospace Engineering education and research in the region.
